Message from Chairperson BOG Saibaan

It is a matter of great pleasure and pride for me to take over as the Chairperson of the Board of Governors of Saibaan for the year 2023-24. Saibaan has been a change agent since its inception in 1999. Starting from the small city of Mansehra, Saibaan expanded its operations to upper and lower Chitral, Kohistan Upper, Kohistan Lower, Kolai Palas, Abbottabad, Haripur, Batagram as well as Muzaffarabad, Upper Neelam, Lower Neelam and Hatian in Azad Jammu & Kashmir, and Sukkur in the province of Sindh. While implementing various projects and initiatives, we reached millions of families in need. Having worked for destitute women and children in the past, I personally saw how impactful the work of Saibaan has been.

However, none of the great work we do at Saibaan could be possible without the unwavering support of the many stakeholders we have, including the government line agencies, donor partners, community members and the Saibaan team itself. I congratulate Saibaan's governing body, Saibaan's management and its phenomenal team as well as our funding partners that help make Saibaan's mission and vision come to life.

With devotion, dedication and teamwork, we can make change that makes a lasting positive impact in the lives of the unfortunate.

Miss Sadia Ijaz

Chairperson

Board of Governors

Saibaan Development Organization

Pakistan

Message from CEO Saibaan

A proud CEO of a very committed and professionally sound team, I am delighted to share that Saibaan Development Organization has become one of Pakistan's top social impact organizations.

Decades back Saibaan started its journey in 1999 and gradually expanded its operation to the far-flung areas of Khyber Pakhtunkhwa and Azad Jammu & Kashmir. Different project interventions including WASH, Education, Health, Sustainable Livelihood, Gender Empowerment, Human Rights, Climate Change, and Disaster Risk Management have been implemented in remote and deprived communities. It was only possible with the support of a potential, dedicated, committed, and hardworking team.

Saibaan believes in strong transparency and accountability at all levels Alkhmdolillah, We have been accredited and certified by the Pakistan Center of Philanthropy twice, since 2009. Saibaan Pakistan has gained the trust and confidence of the communities we work for, as well as funding partners and other stakeholders.

Networking is always crucial for synergizing efforts to make visible and positive change, keeping this phenomenon Saibaan Pakistan joined the membership of many national and international networks, some of these are IUCN, CANSA, FANSA, Civil Society Coalition for Climate Change, People Health Movement, Pakistan Social Accountability Network, and many others.

Saibaan's vision is to strive for a prosperous and non-discriminatory society based on social justice, equity, and equality.

I am obliged to all for being associated with Saibaan in any capacity for the betterment of marginalized segments of the society.

Founder's Profile

Born at Mansehra in a religious and spiritual family Sahibzada Jawad founded Saibaan Development Organization in 1999, which was later on registered under the Societies Act 1860 in June 2000. Sahibzada Jawad Alfaizi has done PhD in Human Resource Management. He has done MS in Management, M.Com Management, B.Com Honors, MA and LLB. Mr. Sahibzada is an advocate of High Court as well. He holds a rich managerial experience of 30 years mainly of the development sector. Sahibzada Jawad has been a member of BoD of Human Resource Development Network Pakistan, Member IUCN Pakistan National Committee, Member Steering Committee of Freshwater Action South Asia, Member People's Health Moment International, Member Climate Action Network South Asia, Member Civil Society Coalition on Climate Change Pakistan, Member Board of Study Hazara University Mansehra, Member Board of Study University of Haripur etc. Mr. Alfaizi has attained Post Graduate Diploma in International Relations, Strategic Management, Human Resource Management, Leadership, Change Management and Urban Planning from Germany, Thailand and South Africa. Currently Sahibzada Jawad Alfaizi is working as CEO of Saibaan Pakistan.

I. The Organization

Saibaan Development Organization is a non-governmental, not-for-profit, right-based national organization having its head office in Mansehra, KPK. Saibaan Development Organization was founded in 1999 and was later, registered under the society's act 1860 in June 2000. The organization commenced its journey with some small projects in Mansehra city, focusing mostly on the capacity building of area people (female and male) in different trades e.g. cushion making, woodwork, polishing of furniture, etc. In the early stages, Saibaan concentrated on a limited geographical area to ensure the maximum level of quality and accountability standards in its humanitarian actions.

Saibaan is working for the uplift of rural communities empowering marginalized groups in different areas of Pakistan. Saibaan has earned a good name and become a prominent organization in the arena of developmental programming around child rights, women's rights, and humanitarian responses. Saibaan has the honor to become a member of many national and international development networks including IUCN, FANSA, PHM, CANSA, HRDN, and CRAN etc.

Saibaan is privileged to have worked with more than 25 international partners and government agencies in the development sector and successfully implemented more than 45 long-term and short-term projects in different Pakistan districts. Saibaan has been working in different thematic areas including Women Empowerment, Child Rights and Child Protection, Emergency Response, DRR, WASH, Education, Health, Livelihood, and Climate Change.

II. Board of Governors

The BoG of Saibaan is composed of 9 members with 33% women participation. Board was chaired by Sadia Ejaz for a period of one year. Now Saibaan is women headed organization. As per the Memorandum of Associations the Board needs to hold meetings quarterly after three months. Saibaan Board comprises highly intellectual, skillful professionals from different fields including development practitioners, educationists' philanthropists, businessmen and lawyers.

III. Five year Strategic plan

Saibaan believe in active involvement of all the stakeholders that's why five year Strategic Plan drafted after every five years. It is an ongoing process and after every 5 years Saibaan drafts its strategic plan. Different project have been implemented which relates to our strategic plan and all the project have been brought positive changes among the targeted communities.

IV. Pakistan Center for Philanthropy (PCP) Certification:

The Certification Programme of PCP seeks to bring transparency, accountability and good governance in the non-profits sector in Pakistan. The first initiative of its kind in South Asia; it involves the evaluation of a non-profits organization on internationally standardized parameters. PCP promotes certified NGOs in an annual directory and on its website and also builds capacities of non-profits organizations for improved effectiveness. Saibaan is certified by PCP on the basis of the remarkable results of evaluation in 2009. Again in 2022 PCP renewed the certification of Saibaan for a period of three years.

Certification No: ^{PCP-RI/2022/207}.....

IX. Policies in place

Saibaan has adopted international standards of Policy Procedures and these policies are updated regularly on annual basis to make them compatible with the emerging needs and challenges. These organization policies and procedures are broad guidelines to run the organizational matters in a smooth and transparent way. For a better understanding of all especially the support staff, some of the policies like gender policy have been translated into Urdu. These policies are strictly followed at all levels to keep the organization fostering and nourishing in the right direction. The following policies are in place in the setup of Saibaan.

X. Networks and Linkages

Saibaan Pakistan earned a good name in the arena of the Social sector and got membership in different national and international humanitarian networks. The table below shows the list of some networks to which Saibaan has membership.

XI. Core Humanitarian Standards (CHS)

Saibaan has become the full member of CHS (previously known as HAP international). Established in 2003, CHS is the humanitarian sector's first international self-regulatory body. Members of CHS are committed to develop and maintain the highest standards of accountability and quality management. Saibaan is the 2nd NGO in Pakistan and 5th in the world, got full membership of HAP-I (CHS).

XII. MoU Economic Affair Division/ NOCs / Coordination with local provincial government.

As per Government of Pakistan New Policy to regulate the NGO's Operating in Pakistan, all the National & International NGO's availing Foreign Funding are required to get Registration/ License from Economic Affairs Division. Saibaan signed Memorandum of Association with Economic Affair Division on 24th April 2018. MoU with economic affair Division revised annually. For the year 2022 MoU has been renewed in January 2022.

XIII. Our Partners

List of Partners

More than 25 donors supported Saibaan in implementing different project. The list of the donors in the below table.

Our Partners in Development

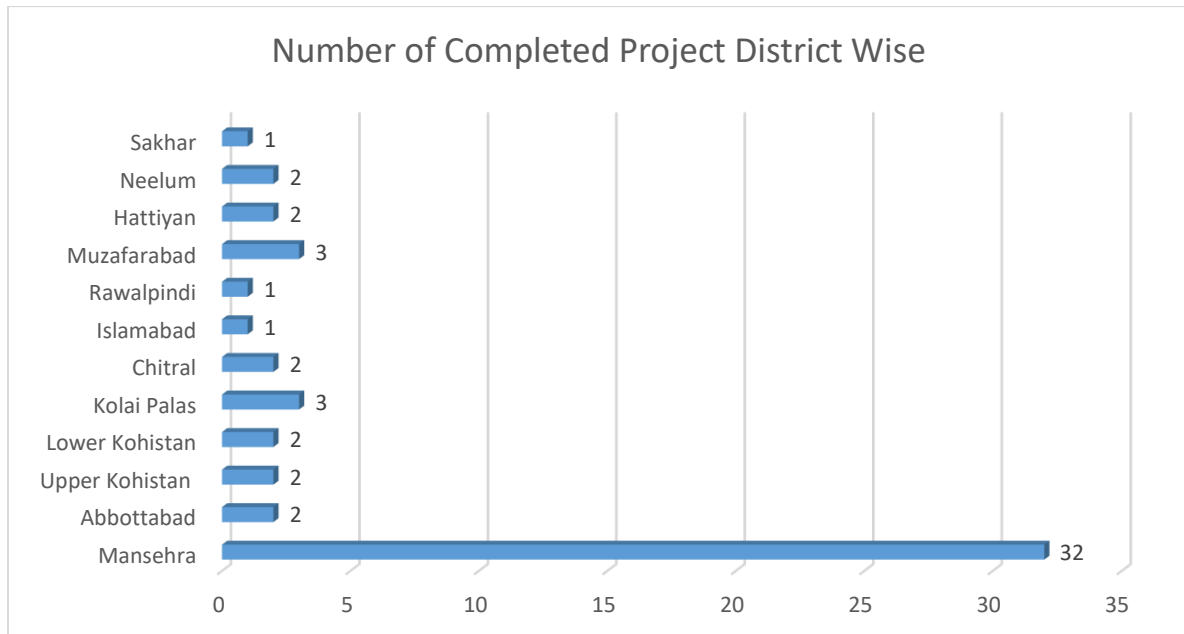

XIV. Geographical Coverage

Saibaan has immense experience of working in many districts across Pakistan and implemented different projects with financial support from different international donors. After the fatal earthquake of 2005, Saibaan extended its working area from district Mansehra to other districts of KPK. In 2010, Saibaan entered into partnership with UN Habitat for implementing a WATSAN project with focus on gender mainstreaming in Muzafarabad, AJK. Same year Saibaan developed working relationship with UNDP and Concern worldwide to work in district Kohistan for recovery and WASH projects. Saibaan geographical coverage is indicated in the following map of Pakistan.

S.No	Punjab	Sind	KPK	AJK	Islamabad
1	Rawalpindi	Sukhar	Abbottabad	Muzafarabad	Islamabad
2			Haripur	Neelum	
3			Mansehra	Hattiyyan Bala	
4			Battagram		
5			Upper Kohistan		
6			Lower Kohistan		
7			Kolai Palas		
8			Chatral		

A. District wise Number of Project

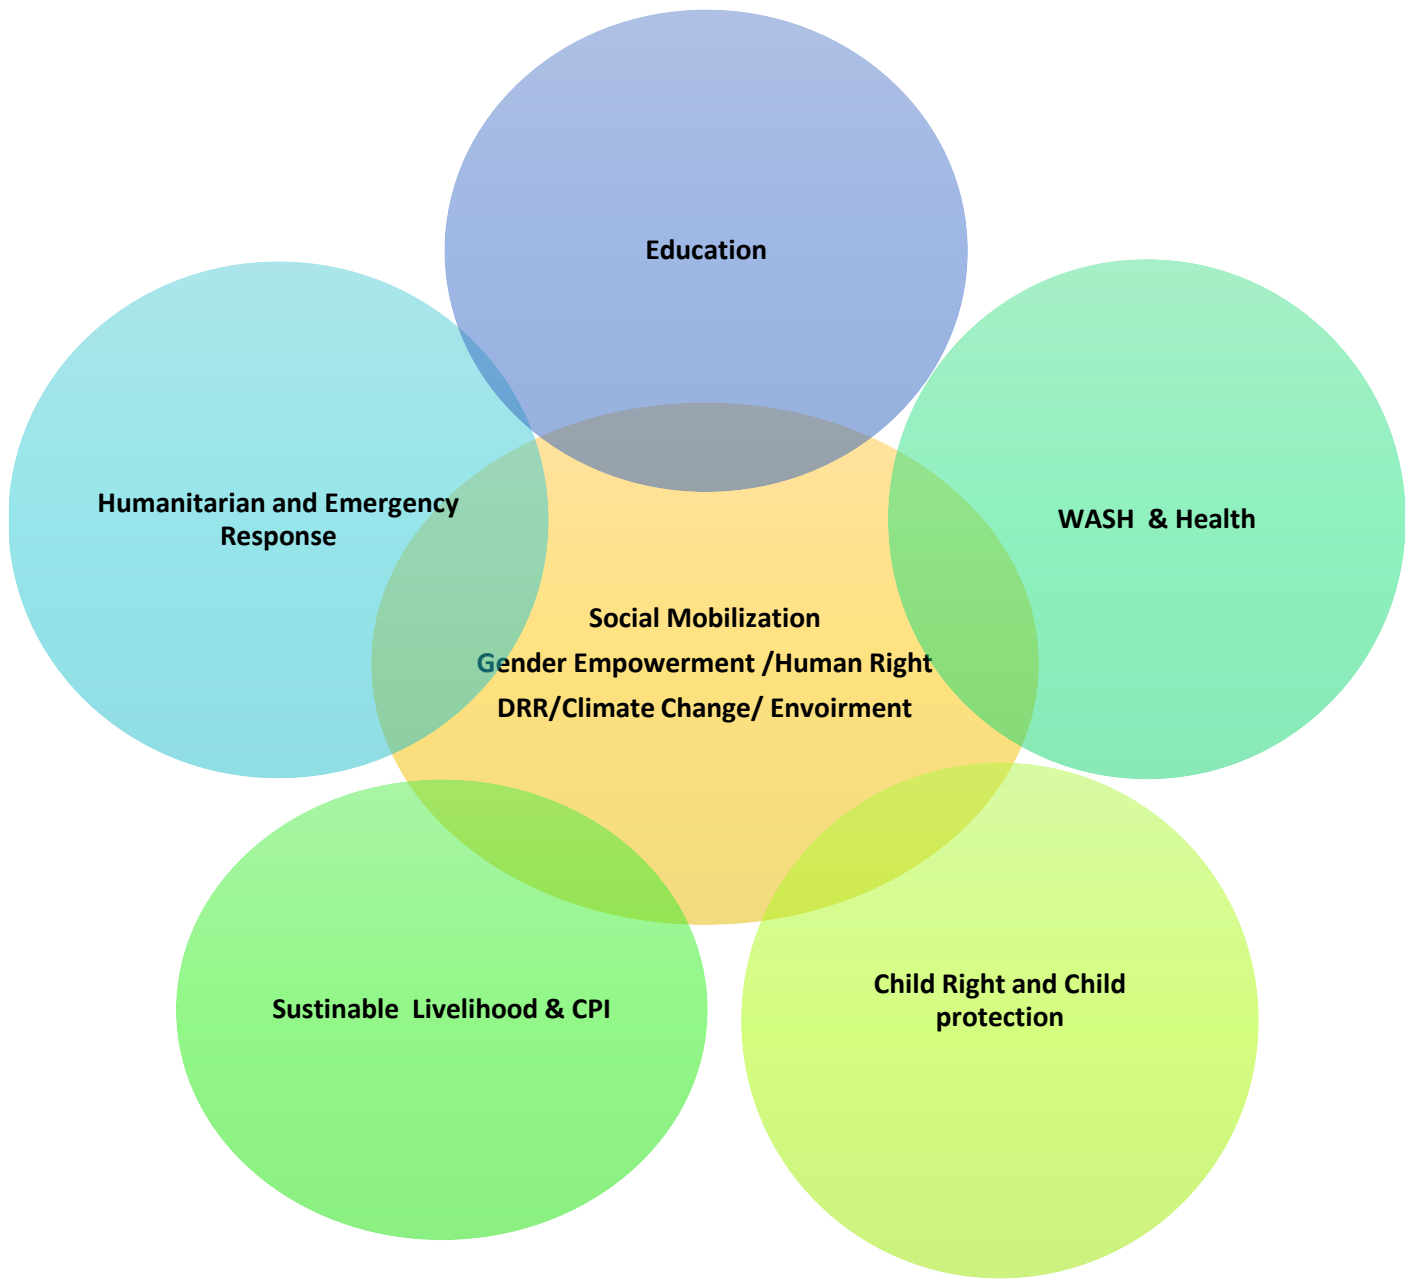

Saibaan worked in different district of Pakistan. Most of the projects have been implemented in Mansehra as Saibaan based and emerged from Mansehra. Further detail of the total project implemented by Saibaan is as under.

B. Amount Spent by Saibaan until now

An amount of about 803 million rupees (3,402,377.65 Dollar) have been spent by Saibaan in last 23 year for the welfare of the marginalized people of Pakistan. About 45 project have been completed until now.

XV. Thematic Areas

1. Education

Education is one of the major thematic areas of Saibaan. Due to the globalization affect, Education is becoming the main focus of Saibaan, as without education the dream of sustainable development cannot be achieved. Saibaan has a firm commitment to increase the children' enrolment in the schools, develop and strengthen parents' teachers associations in Govt. schools to improve the educational standards of schools. Offering a support to education by involving the communities, which is perhaps the most important factor in creating a successful future for generations that will have to cope with a rapidly changing environment. Saibaan focuses on both formal and non-formal primary education, adult education, gaps in education and advocacy campaign.

The achievement in the thematic area of Education includes Revitalize/strengthen Parents Teacher Councils(PTCs), Linkages of community members with stakeholders that include Education department, DRU, representatives of local government and other actors, arranging tournaments and games and debate competitions of schools to get students involved in healthy activities, Provision of books to the students in target schools to increase the reading habits among students, Provision of missing facilities in schools, Teachers Training Program in MGT and Construction & rehabilitation of schools Shelters.

2. Water Sanitation and Health

WASH has been one of the main thematic areas of Saibaan. To address the Water, Sanitation & Hygiene issues of the communities, Saibaan initiated all WASH interventions in the targeted areas. Saibaan had provided shelters, household latrines, repaired and maintenance of damaged water supply schemes and some of the new water supply schemes including water storage tanks at village level and installed hand pumps as well. Saibaan had also formed O&M Committee at village level and trained them for O&M of water supply and Sanitation schemes. Saibaan has been involved in executing WASH projects that includes both hard and soft components. Provision of drinking and domestic water to the communities during different emergencies and after emergency rehabilitation of water supply schemes through gravity flow system, dug well & Hand pumps. In Sanitation provision of basic latrines in schools, Health facilities and communities. Community Led Total Sanitation (CLTS) School Led Total Sanitation (SLTS) Women Led Total Sanitation (WLTS) and Pakistan Approach to Total Sanitation (PATS) approaches have been implemented by Saibaan for awareness raising of all segments of the communities. Inclusive integrated messaging with communities on COVID-19, hygiene and infection prevention messages, integrated with awareness raising on nutrition. Construction of hand washing station at government institute and raising awareness about health and hygiene.

3. Child right & Child Protection

Child rights and child protection is the essential part of Saibaan intervention from its evolution. Saibaan had implemented many project for the protection of child rights, to minimize the risk of child protection in accordance with wellbeing of child and to raise awareness among masses about the child rights. Saibaan had wonderful achievement of establishing, Secretariat of Child Rights Advocacy network (CRAN) at district level. The objective of CRAN is to ensuring and improvising the child rights and protection situation prevailing at district level. Several studies have been conducted with active involvement of Government departments, INGOs and National Level NGOs working on child rights. Different project have been implemented by Saibaan with financial support of international donors to minimize the risk of child labor and protection in accordance with wellbeing of child.

Following interventions have been arranged over the time:

- ❖ Child rights and child protection awareness session conducted at community and school level.
- ❖ Children confidence building programs, walks, sessions, campaigns, and trainings, celebrations of national and international days.
- ❖ Formation and capacity building of child forum at community level to promote awareness about child rights and enhance their leadership qualities.
- ❖ Established community based child protection mechanism

4. Sustainable Livelihoods

Livelihoods survival and improvement is vital for the sustainable change among communities. Since its inception, Saibaan has significantly contributed in rehabilitation and improvement of livelihoods of the marginalized communities. Many projects have been executed following an integrated approach with focus on livelihoods initiatives. These projects were aimed to restore the livelihoods for the disasters (earthquake, floods etc) stricken and most marginalized communities through improvement in agriculture, livestock, poultry, skill enhancement and market linkages. Mostly the projects were focused on improving human capital e.g. skills, knowledge, health and ability to work. The physical basic infrastructure, such as roads, water & sanitation, schools, and producer goods, including tools, livestock and equipment are also provided or improved as per need of the target communities. At local level the capacities and access of the communities has been enhanced to financial resources including savings, credit, and income from employment, trade and business opportunities.

Saibaan also implemented innovative gender based sustainable livelihood improvement and revival projects. These projects were focused on the most vulnerable and poor target households to bring improvement in their lives. The main focus are the women, marginalized and excluded segments of the society. The target communities have enhanced their management capacities to operate their groups in an efficient and sustainable manner and targeted communities are actively managing their business to contribute in their family income.

A. Agriculture Rehabilitation

Saibaan initiated many project to improve livelihood of the targeted communities. Different activities have been carried out to improve the agriculture in the targeted area. The activities includes but not limited to Trainings on kitchen gardening, Agriculture Extension Workers (AEWs) trained, Field terraced, Irrigation channels repaired/constructed, Provision of improved seeds, fertilizers and toolkit, Linkages developed with GLAs and training for better yields from crops in the targeted areas.

B. Livestock and Poultry Development

Achievements in the sector includes Restocking of livestock and poultry, Livestock Extension Workers (LEWs) training. Poultry Extension Workers (PEWs) training, Vaccinations campaigns for prevention of

losses in livestock and poultry, Linkages developed with government line agencies and other service providers.

C. Capacity Building

To improve the livelihood of the communities Saibaan had organized many capacity building training, following training have been provided to the targeted communities. Plumber, Electrician trainings Mason trainings, Carpenters trainings, driving trainings for boys, Furniture making trainings, embroidery trainings for women and Tailoring trainings. In the result of these training now the people who got the training are now self-sufficient and supporting their families and siblings.

5. Humanitarian and Emergency Response

Saibaan development Organization always have a vital role during emergencies. Right from beginning Saibaan involve in all the emergencies and responded for the safety and help of the people in need. During the devastating earthquake in 2005 CEO of Saibaan himself involved in rescue mission and drive ambulance for 16 days and shifted many wounded people to the city hospital in Mansehra and Abbottabad. Saibaan implemented many emergency response, recovery and rehabilitation projects during 2005 earthquake, flood emergency in 2010, 2013 and 2022 and also during CORONA virus in 2021-22. Saibaan distributed food, shelter, medical help, NFI kits and other emergency material to the effected people. Saibaan also constructed mosques, houses, school, roads, small bridges, pedestrian bridges, rope trollies, demo latrines and other damaged infrastructure including retaining wall, gabion wall etc in the disaster prone areas. During the Corona virus Saibaan supported government institution by providing them medical equipment's including (Oxygen Concentrator and cylinder, Suction Machines, Nebulizers, Pulse Oximeter, Cardiac – Respiratory Monitor and Syringe needle cutter etc. PPE kits including equipment's like Medical Face Mask, N95 Respirator, Disposable OT Caps, Surgical Latex Gloves, Gown, Hazmat Suits, Hand Sanitizer, Liquid Soap Cleaner, Alcohol Swab and Toilet Roll etc. WASH IPC kits includes Liquid Soap leaner (500ml), Bar Soap, Disinfectant material (Bleach), Bio-Hazard Bags, Gum Boots, Color waste bin, Wheel Barrow, Spade and Heavy duty Gloves). Saibaan also constructed handwashing station at hospital and educational institutes and also rehabilitated medical centers including DHQ, RHCs and BHU.

XVI. Cross Cutting Themes

1. Social Mobilization

Social Mobilization has been an essential part of the working mechanism of Saibaan, It is a powerful tool to address inequities through community engagement and grassroots led actions. Without community participation the real essence of development cannot be achieved from the project activities. So far Saibaan had established more than 800 men, women and joint Village Development Organizations (VDOs) and strengthened by providing Leadership Management Skill Training (LMST), Community Management Skill Training (CMST), Citizen Community Board (CCB) and Office equipment. Many VDOs registered as CCBs with Social Welfare Department. VDOs have now taken leadership role, opened bank accounts, generating saving, developed network alliances with Govt. and NGOs. One of the great achievement is that, women are actively involved in productive activities and decision making process.

Saibaan plays a bridging role between these grassroots level organizations and service providers (Govt. and other developmental organizations) for the capacity buildings of these community institutions by organizing different trainings and exposure visits to enable the target communities to take charge of development initiatives on sustainable basis.

2. Disaster Risk Reduction

Disaster risk reduction and disaster management have been the crosscutting themes of Saibaan. Therefore during the implementation of every project, the communities have been capacitated to face any future disasters. Saibaan hired the services of reputed training institutes and organized disaster risk reduction trainings to the communities to mitigate the effects of any possible future disasters. Community action plans have been developed to be followed during the disasters with assigned roles and responsibilities. Disaster management committees are also in place in all the target areas with defined roles. These committees have been provided with refresher trainings to further enhance their capacities in disaster risk reduction. These communities are also provided with disaster risk reduction kits to better cope with any disastrous situation. The involvement of women has also been ensured in these trainings and separate kits have been provided to women disaster risk reduction committees.

Achievements in the sector of DRR includes, formation of Disaster Management Committees (DMCs), comprehensive DRR training for the DMCs, Provision of Rescue Kits, Land terracing Widening /repairing of walking tracks and bridges, Early warning systems and construction of retaining wall.

3. Climate change

The rapidly emerging climatic change is one of the biggest threat to the sustainability of life. The phenomenon of global warming is a major cause of environmental degradation. According to German Watch, Pakistan has been ranked globally in the top ten countries most affected by climate change in the past 20 years owing to its geographical location. Climatic changes are expected to have wide-ranging impacts, such as: reduced agricultural productivity, increased variability of water availability, increased coastal erosion and sea water incursion, and increased frequency of extreme climatic events. Keeping in view the changing climate Saibaan added Climate change in thematic area of Saibaan. For last few years Saibaan has been implementing different project in this thematic area. We always believe in” Do No Harm Policy”. Different activities has been conducted by Saibaan to create awareness among communities and development practices that includes plantation drive, awareness raising session and walk, trainings and workshops. In our field area, Saibaan introduces small Hydro Power Generators, Solar water Heaters at communal units, Solar cookers in high altitude areas and protection wall. Overall Saibaan has been contributed remarkably not only to raise awareness about climate change but also prepared the communities about the dire effects of climate change. Furthermore Saibaan privileged to have membership of different climatic authorities including FANSA, CANSA, IUCN and CSCCC.

4. Gender and Women Empowerment

Gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world. Saibaan works to improve the lives of people in the targeted areas by addressing the distinct and intersectional needs of women and girls, men and boys, in all their diversity.

Saibaan Development organization ensures empowering women to participate fully in all aspects of life and this is essential to build stronger economies, and improve the quality of life for families and communities. Live & Learn aims to promote equality between women and men in all aspects of economic, social and political life. Saibaan work towards gender equality, including the full and equal involvement of women in shaping the vision of development, setting development agendas, and determining needs and priorities. Saibaan Development Organization work to establish strong and functional relationships with men and women in a community before introducing any topics/activities or trainings that could easily be perceived as attempts to influence culture and challenge men's authority.

Saibaan have initiated different women empowerment projects resulting in a considerable change in communities' attitude towards women. Even women themselves did not realize what their roles and responsibilities are in addition to the reproductive role. Women involvement in decision making at village level has considerably increased after Saibaan interventions in these areas. Men now acknowledge the basic rights of women by allowing them to participate in village level initiatives. Women unpaid care work which is never recognized by the men ever. For this purpose Saibaan initiated project that includes activities regarding promotion of women unpaid care work with men and women.

5. Infrastructure Development

Infrastructure development is one of the core thematic area of all Saibaan projects. Saibaan played a vital role in infrastructure development and improving living standard of people of rural areas of Pakistan. At the project that have been completed by Saibaan, infrastructure development was the core theme. For the infrastructure development different activities have been carried out including construction of link roads, Walking tracks, Irrigation channels construction, construction of Protection/Retaining/Gabion walls, Field terracing, Installation of Safe Drinking Water Schemes, construction of Women Friendly Halls, Ponds for the drinking water of animals, Construction of Small suspension bridges, Construction of small Hydro power projects, Installation of Rope-trolleys and Construction of Demo-Latrines etc.
